STARS AND STRIPES

ROMANIA - Romanian MiG-21s have been dogfighting in drills with U.S. F-15s at Mihail Kogalniceanu Air Base in southeast Romania, reports the Stars and Stripes.

The exercises, dubbed Sniper Lance, also involve U.S. KC-135 Stratotankers as well as Romanian MiG-21s.

The training is focused generally on air combat and in particular on the unique capabilities of the MiG-21.

ROMANIA - Parliament Signs Off On U.S. Basing Agreement

AGENCE FRANCE-PRESSE

ROMANIA - Romania's parliament has approved a measure to allow the United States to station troops at four domestic bases, Agence France-Presse reports.

The formal approval authorizes 1,500 U.S. troops to be based at Mihail Kogalniceanu and Babadag in the southeast, Smardan in the south and Cincu in central Romania.

The vote will "contribute towards consolidating relations with the United States," said Prime Minister Calin Tariceanu.

"The activities of American forces on and from Romanian territory will be the result of consultations and joint decisions," said Tariceanu.
